Basic Buddy® CPR Manikin is a dramatic, inexpensive, and state-of-the-art manikin designed for teaching individuals or large groups the life-saving techniques of CPR. This manikin offers a realistic and affordable way to provide each student with their own CPR manikin. The one-piece, disposable lung/mouth protection system makes this manikin completely sanitary - there is no risk of cross contamination and no need to sanitize the manikins after use! The airway opens using the head tilt/chin lift method, and there is a visible chest rise when ventilated. The xiphoid process provides an anatomical reference point for hand placement and compressions. The manikin also features both adult and child capabilities. Basic Buddy® manikins are simple to assemble and provide trouble-free maintenance. Consists of 1 manikin, 10 lung/mouth protection bags, one insertion tool, and an instruction manual. NOTE: Only use AED pads designed for foam body manikins.

## Features:

- Adult and Child Capabilities
- No Messy Cleanup
- Lightweight and Portable
- Economical Each Student Can Have Their Own Manikin

- Totally Sanitary, One-Piece Lung/Mouth Protection System
- Realistic Chest Rise
- Unique Airway System Opens and Closes with Proper Technique
