The S401.100 Advanced Multipurpose Venous Training Arm combines all features required for IV, IM, and Sub-Q training. The S401.100 is designed to help participants practice and gain proficiency in essential nursing skills and procedures like venipuncture, IV administration, blood collection, infusion, and intravenous injection.

PRODUCT FEATURES

- Subtle venous network in arm and hand
- Cephalic, basilic, antecubital, radial, and ulnar veins
- Realistic "pop" as needle enters vein
- Intramuscular injection site in deltoid area

- Subcutaneous injection areas on the volar side of the forearm and the lateral side of the upper arm
- TB test site
- Squeeze bulb to increase or decrease venous pressure
- Veins stand out or collapse
- Easily replaceable skin and veins
- Administration of medication by intravenous bolus
- Simulation of infusion technique
- Blood collection exercises with simulated blood
- Simulation of clenched fist and tourniquet position
- Smoked Lucite® base with stand
