The One-Year-Old CPR Patient Simulator with OMNI[®] is a full-body 1-year pediatric patient simulator designed to help participants practice

and hone basic life support and CPR skills. Participants can work hands-on during chest compression and ventilation exercises while educators can monitor CPR performance and receive quality metrics in real-time with OMNI®.

Product features:

- Fully articulating head and jaw with teeth and tongue
- Individual disposable airways to practice hygienic mouth-to-mouth ventilation
- Airway blocked when head is forward
- Realistic chest rise during ventilation
- Four arterial pulse points
- Soft, lifelike face skin with molded hair
- Intramuscular (IM) Injection Sites on the quadriceps
- Bilateral brachial, right femoral, and left posterior tibial pulses
- Eyes open and close in realistic eye sockets for ophthalmic purposes
- One normal eye and one eye dilated
- Practice regular or Vest CPR
- T-shirt and shorts
- Custom nylon carrying bag
- Instruction Manual
