Parameters

Volume 2 - 200 µl

Package 100 pcs

Quantitative unit bal

- Made of first-class polypropylene with low wettability, shape stability and precision.
- Inovated saddle shape of the tip better seal to the bottom conus of Eppendorf pipettes and pipettes of other producers.
- Fine graduations make it easy to visually check the volume pipetted
- Available in three purity levels: Eppendorf Quality, PCR clean and Eppendorf Biopur (sterile)
- Contamination-free handling of the refill tray - plastic lids protect refill trays from direct contact during transfer to the reusable box.
- Boxes are repeatedly autoclavable.
- Dual-filtertips - Two filter layers provide dual protection from aerosols and biomolecules.
- Logistics system for maintaining the color of typical volumes - blue, yellow, red, anthracite
- Volumes of tips from 0.1 - 10 ml to 1 - 10 ml, including filter tips
- Special tips - GELoader to transfer the sample to electrophoresis gels and Microloader for use in cell technology
- Color distinction exchange cartons insides according to tip size
