- orange color
- Dimension: app. 4,5 x 9,5 cm
- Pack of 10

The Soft Shell Splint® is a flat rectangle of "O" temper aluminum encased in soft foam. The foam on the skin-contact side is open-cell for permeability of vapor and moisture. The thickness of the aluminum distinguishes the "firm" from the "extra-firm" end of the splint. The skin-

contact surface is covered with an absorbent brushedterrycloth. The outer surface is overlaid with Velcro™-friendly material.
