

Equipment Set for Electrochemistry

Order code: **5401.1002711**

Information about product price on demand

Parameters

Quantitative unit

ks

Set for measuring electrochemical potentials of various metals in experiments intended for students. Inclusive Digital multimeter.

- **Trough:** approx. 85 × 70 × 45 mm
- **Electrodes:** approx. 76 × 40 mm

Contents:

- 1 flat trough
- 1 copper plate
- 1 zinc plate
- 1 iron plate
- 2 nickel plates
- 1 aluminum plate
- 2 electrolyte-carbon plates
- 1 digital multimeter with 2 cables with crocodile clamps
