Designed to look like a cigarette on one side and an artery on the other, this colorful display graphically explains the damage smoking causes in a smoker's bloodstream. The artery in the model shows how smoking causes carbon monoxide to "choke" out oxygen in the bloodstream and contains models reflecting the poisons that flow through the bloodstream of a smoker. Plaque buildup caused by smoking is depicted on the sides of the model. Display includes a tent card that explains each of the aspects of the model and provides further information about the consequences of smoking.

- Model is 25 × 8 × 6 cm
- The card is two-sided and 22 × 28 cm
