Parameters

Quantitative unit ks

When a patient or student views realistic models of lung tissue affected by smoking, the impact is stronger than any words or photographs. Cast from real specimens, these three handpainted models represent a normal lung, a lung with emphysema, and a lung with cancer. This unique, 3-D display illustrates the dangers of smoking in a way viewers will never forget. Comes with protective felt cover.

• **Dimensions:** 23 × 30 cm
