Parameters

Stopwatch type	Adding
Serie	Robust
Number of stones	7
Range	30 min
Graduation	1/5 s
Quantitative unit	ks

With this special design Hanhart has adapted the timer to requirements of the industry and crafts.

Features:

- Precision movement with a mineral glass, metallic crown and metallic buttons
- The glass is resistant to scratching and acids
- The metallic buttons and metallic crowns are extremely robust and resistant to solvents and thinners
- They are especially suitable for use in the chemical industry, in paint shops and in photo laboratories
- Weight: 135 g
