The 3 part medical quality human skull replica is a first choice for basic anatomical studies of the skull. This skull model includes an anatomically correct 5 part brain. This medical grade skull model also makes a great present for medical professionals and students of medicine and allied health professions.

- High quality original skull cast
- Skull is handmade from hard, unbreakable plastic
- Highly accurate representation of the fissures, foramina, processes, sutures etc.
- Can be disassembled into skull cap, base of skull and mandible
- Mandible of skull is mounted on a spring to easily demonstrate natural movement

The 5 part brain is midsagittally divided human brain replica (C18) and is cast from an original specimen, lending anatomical accuracy to this model. The components of the left brain half are:

- Frontal and parietal lobe
- Temporal and occipital lobe
- Encephalic trunk
- Cerebellum

Measurements: 20 × 13,5 × 15,5 cm

Weight: 1,1 kg
