

VD250 - Giant Heart, 8 times life size

Order code: **4004.1001244**

Information about product price on demand

Parameters

Quantitative unit

ks

See every anatomical detail of the heart with this giant 8 times life-size model. Painstakingly constructed by hand, this heart will be the center of attention at any exhibition and it is especially suitable for lecture halls. The atria and ventricles of the heart are open to give a view of the interior, and show the accurately modeled bicuspid and major vessels adjacent to the heart. The coronary heart vessels are also shown very accurately.

On stand.

Measurements: 100 × 90 × 70 cm

Weight: 35 kg
