

AD-4212A-PT - Pipette Accuracy Tester

Order code: **0102.AD4212APT**

Information about product price on demand

Parameters

Capacity (maximum)	110 g
Min. weighing value	0,001 g
Quantitative unit	ks

- Automatic mass-to-volume conversion and accuracy judgment using the special "WinCT-Pipette" software
- Judgment by your preferred criteria - manufacturer specifications, ISO8655, or your own
- Includes an evaporation trap to minimize errors due to evaporation
- Three models covering a wide volumetric range
- Portable carrying case for testing easily on-site (not recommended when a 0.001 mg resolution is required)
- Printing function to have paper-based test records
- Standard liquid thermometer for precise mass-to-volume conversion
- Standard calibration weight and tweezers to maintain the balance accuracy
- Pipetting training capability
- RS-232C (with a Serial / USB converter)
