In the world of emergency care, it is of great importance to optimize stocking space and to satisfy all requests for ergonomically advanced rescue equipment. Optimizing space and performance is the line Spencer drew on when introducing the new Tango. A new design that brings together solidity, dynamics, space and performance and at the same time sets a new standard for highperformance spine boards. Great performance and above all, great for its attention towards the patient; adult and child. An exclusive idea that allows two different profiles with one single product, reducing costs and stock volume. A paediatric and adult spine board always ready to collaborate together and each enhancing the other.

- **Dimensions:** 445 × 55 × 1830 mm
- **Weight:** 8 kg
- **Load capacity:** 180 kg
- **Functioning temperature:** from -20 to +60 °C
