The device serves for opening, filling and encasing gelatine capsules in individual medicament preparation. The replaceable plates are made of acrylic plastic tested for physiological harmlessness. Metal parts of the device are made of nickel-plated brass. Adhesion to the desk is secured by rubber feet.

Accessories: replaceable plates, capsule loader, tamping device

New concepts capsule filler:

- Frame and clamping plates of stainless steel
- Reliable, faster and easier clamping lever
- Compatible with the capsule loader
- **Size:** 305 × 240 × 90 mm
