The PRESTAN Professional Collection combines one Professional Adult, one Professional Child and one Professional Infant manikin in one single collection.

Fully compliant with current industry guidelines, including the most recent AHA Integrated Feedback Directive.

Available in medium or dark skin tones and with CPR Feedback only.

All PRESTAN CPR Training Manikins are Made in the USA.

Additional Details:

All PRESTAN Professional Manikins are available with a revolutionary CPR Rate Monitor that allows for instant feedback to both instructors and students. The visual feedback from the CPR Rate Monitor gives students a real life feel of delivering 100-120 compressions per minute. Lights continually signal rate progression, confirming compressions are within the 100- 120 cpm range recommended by the Industry Guidelines. The yellow light will blink if the 120 cpm upper limit is exceeded, warning students to slow down. Instructors can monitor several students quickly and easily.

In addition to the visual CPR Rate Monitor, students will also hear a clicker sound as the chest is pushed to the appropriate depth of 2.0 -2.4 inches allowing them to experience the true force needed to deliver real life chest compressions.

The CPR Rate Monitor may be purchased separately to upgrade any non-monitored PRESTAN Professional Manikin.

Sleep Mode/No Power	
1st Full Compression (Wake mode/LED Test Mode)	
CPM* < 60	
CPM* 60 – 79	
CPM* 80 – 99
