Quantitative unit	ks

With over 20 years of product development behind it, RealCare Baby® 3 infant simulator (formerly known as Baby Think It Over® or BTIO®) is the world's most advanced infant simulator. RealCare Baby simulator is the only infant simulator with wireless programming and reporting capabilities. It is used in conjunction with comprehensive curriculum and interactive activities.

### RealCare Baby 3 engages users by:

- Crying to be fed, burped, rocked or changed
- Cooing when its needs have been met

### This electronic baby simulator holds users accountable by tracking, measuring and reporting on:

- Care events
- Mishandling actions, including Shaken Baby Syndrome, head support and wrong position
- Surrounding temperatures
- Time in a car seat
- Clothing changes

### Target Audience

Whether used in class or during extended simulation experiences, this interactive "robot" baby provides unforgettable lessons on:

- Teen pregnancy prevention
- Childcare, early childhood and health occupations career skills
- Child abuse prevention
- Parenting skills
- Infant health and wellness
- Sex education
