

W42537 - Motor Neuron Diorama

Order code: **4004.1005553**

Cena bez DPH

1.389,00 Eur

Price with VAT

1.680,69 Eur

Parameters

Head, brain, nervous system - filter

Nervový systém

Quantitative unit

ks

Motor neuron diorama magnified more than 2,500 times, this motor neuron model represents a fully three-dimensional reproduction of a motor nerve cell situated within a milieu of interacting neurons and a skeletal muscle fibre. The membranous envelope has been cut away from the neuron on the motor neuron model to expose the cytological ultra structure, organelles and inclusions within the cell body. Branching dendrites, communicating synapses and a myelin-wrapped axon with node of Ranvier, project from the neuronal surface of the motor neuron model. A section of the axon lifts off of the motor neuron model to let you view the tightly-wound layers of the enveloping myelin sheath and neurolemma, as well as the Schwann cell which formed them. Motor neuron diorama mounted on a wooden base.
