MX Drawers

Order code: **7202.MX**

Information about product price on demand

Parameters

Quantitative unit

ks

The MX series is designed for storing fast-moving goods. The number of columns and drawers height can accommodate the architectural needs of your pharmacy, pub, etc., while maintaining the full convenience of storing medications in the vicinity of the operator. Most often, they are used as a tare drawer, or by a lot of free sales.

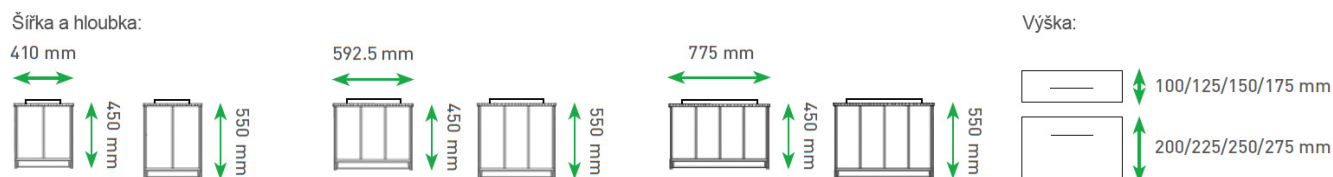

Advantages of the FAMA 7007 drawer system

- Easy and fast assembly
- High variability
- Automatic boot system
- Practical division using sliding dividers
- Full extension

- Full or perforated bottom

Dimensions produced:

The MX series drawers are manufactured in three column widths (410 / 592.5 / 775 mm) and two different drawer depths (450/550 mm).

The number of columns, as well as the number and height of the drawers, can be customized to the individual needs of the customer and the space, and the height of the individual sockets can be selected in steps of 25 mm from the minimum height of 100 mm to 275 mm. The drawer height is always about 5 mm smaller. Drain bottoms can be full or perforated, which significantly minimizes dust deposits on the bottom of the drawers and thus contributes to higher purity.

Type	Width [mm]	Depth [mm]	Price without VAT
M2 450	410	450	<i>on request</i>
M2 550	410	550	<i>on request</i>
M3 450	592,5	450	<i>on request</i>
M3 550	592,5	550	<i>on request</i>
M4 450	775	450	<i>on request</i>
M4 550	775	550	<i>on request</i>

Note.: Due to the large variability of the FAMA 7007 drawer systems (number of columns, drawer height, etc.), it is not possible to set the price in advance. But do not hesitate to contact us, we will be glad to provide you with an accurate price calculation of your chosen sets.

For practical use of the FAMA 7007 drawer systems, you can look at the Photogallery Pharmacy and interior furniture.
