HAL® is an easy-to-use and portable airway management and CPR skills trainer designed for teaching resuscitation and auscultation skills to students and professionals in EMS, Medicine, and Nursing. HAL® features a high-fidelity airway, realistic heart and lungs sounds, and real-time CPR quality feedback to help you teach effective cardiopulmonary resuscitation and airway management.

Product Features

- Manually open or close eyes
- Normal, miosis (constricted), and mydriasis (blown) pupil states
- Independent left/right pupil states simulate consensual and nonconsensual response
- Realistic head tilt/chin lift and jaw thrust

- Durable lifelike airway anatomy
- Nasal and oral Intubation: ETT, LMA, King LT®
- Chest rise with bag valve mask ventilation
- Gastric distension with esophageal intubation
- Right mainstem intubation presents unilateral chest rise
- 40 Programmable normal and abnormal heart and lung sound
- CPR hand positioning landmarks and realistic chest compression recoil and depth
- Carrying bag
- Nasal passage permits placement of NP tube
- Features patented Virtual Instruments® technology
