It can be difficult for students to truly understand the various stages of fetal development by looking only at textbooks, videos or photographs. With the RealCare™ Fetal Development Kit, students get an in-depth look at embryo and fetal development by touching, feeling and examining a detailed, life-size model of each fetal development stage. All models are made of lightweight plastic. A comprehensive, 3-lesson curriculum is also included.

Target Audience:

- Middle school or high school students
- Community education programs
- Public health programs
- Clinical education programs

Use the kit to address:

- Monthly fetal development stages
- Trimester characteristics
- Healthy eating during pregnancy
- What to avoid during pregnancy
- Genetic diseases
- Pregnancy symptoms and discomforts
- Exploration of pregnancy- and childbirth-related careers
