The WOB-L® 2585 dry piston pump is ideal for pumping water vapor, and for applications with vacuum requirements above 80 mbar and a high flow rate (up to 201 l/min). The pump provides continuous, reliable, high flow vacuum. It is light, compact, and its oil-free operation reduced maintenance. Pump comes with inlet liquid trap and mounted vacuum gauge.

Note: pump is not recommended for pumping organic, acidic and basic vapors.
