THE LEARNING ACCELERATOR FOR MEDICAL AND NURSING EDUCATION

Realistic Engine

Body Interact Realistic Engine comprises a set of proprietary physiological algorithms and AI, making each virtual patient act almost like a real human patient.

Its efficient design lets you interact in many ways with your patient, having a real-time dynamic response, thus creating an immersive environment that lets you focus all your attention on your patient's health status.

Have access to all kinds of examinations, interventions, medications and much more.

More than...

- 200 medications
- 300 health conditions
- 180 medical tests
- 80 interventions
- 110 clinical scenarios

- 60 physical exam items

Comprehensive simulation lab

Treat your patients with the right tools in the right environment. Whether in an ambulance, in the office or the Emergency room, Body Interact provides you with the appropriate equipment in the right place.

It is so immersive that the surrounding area disappears into the experience.

Learn with expertise

Body Interact's validated scenarios challenge the trainee's clinical and critical thinking skills, providing the best possible preparation for providing care without any risk to real patients.

Our expert reviewed scenarios rely on clinical evidence and well-established guidelines. They are designed and regularly updated to address basic, intermediate and advanced clinical skills goals in the Medicine, Nursing and Emergency curricula.

Learn by experiencing the clinical challenges in a range of different specialities

- Allergies
- Anesthesiology
- Cardiology
- Endocrinology
- Gastrointestinal
- Infectious diseases
- Internal medicine
- Nephrology
- Neurology
- Oncology
- Orthopedics
- Pediatrics
- Pregnancy
- Respiratory
- Toxicology
- Trauma
- Urology
- Vascular diseases

BI Studio

Transform the way you learn, teach and create in the classroom

Improve learners' performance by understanding it. With Studio, you can track your learners' performance by having real-time detailed dashboards and the ability to set up and run OSCEs easily.

Create your learning environment and its experience by developing your own clinical scenarios with customized learning objectives.

Anytime, anywhere...

Take advantage of Body Interact cloud technology, allowing you to bring your learning accelerator to every corner of the world.

It runs on your web browser, either on a computer or a tablet, on Body Interact tabletop and also on your laptop so you can take it anywhere.

The most powerful and versatile Virtual Patient platform!

License with an annual subscription - Digital classroom
