For those looking for something with a bit more capability, the Practical Workshop is a good entry point. Particularly suited to the DIY/Craft user on a budget this set works with material sizes from 10mm x 1.6mm up to 20mm x 3mm. Again this set's capabilities can be extended at a later date by the separate purchase of the Practical Twisting tool.

Please note: The maximum working capacity stated is for Hot Rolled Mild Steel Bar and Annealed Bright Mild Steel Bar. Working beyond these limits or with material of greater hardness may reduce the operational life of the machines.
