The ZOE® S504.200 simulator is an adult-sized lower torso designed to help learners practice gynecologic skills. The simulator's realistic anatomy and collection of pathologies help learners work hands-on and develop the clinical skills needed to provide safe and effective care for a variety of gynecologic procedures.

PRODUCT FEATURES

Anatomy

- Adult-sized female lower torso: diaphragm to upper-quadriceps
- Smooth and supple skin

- Available in light, medium, and dark skin tones at no additional cost
- Bony landmarks including ischial spines and coccyx
- Patent rectum for suppository administration

Gynecologic

- Vaginal introitus facilitates placement of female condom or diaphragm
- Removable and interchangeable cervixes for visualization of normal and abnormal physiologies
 - Normal parous
 - Polyp
 - Erosion
 - Nabothian cyst
