Kids and Teenagers should experience the effects of adipositas and the limitations caused by too much body weight. With this experience they can be sensitized for healthy nutrition as well as develop empathy for adipose people. A perfect tool for nutrition education or social training. PAT Junior consists of a weighted vest with about 5kg as well as a volume suit for a body size of 125 to 160cm and a maximum waist of 100cm.

The size can be adjusted by elastic straps on the back of the suit.
