Discover the exciting world of electronics with our STEM Electronics set! A total of ten models and 20 experiments teach about the world of electronics in a fun and educational way. Step by step, this building set teaches the basic principles of electronics and deals with a variety of different electronics topics. This building set can be used to construct several exciting models, from simple components to complex ones like alternating flashing lights.

In the education set included:

- 2x push-button
- 1x XS motor
- 2x diode
- 2x transistor
- 3x resistor
- 2x capacitors
- 1x 9V block battery holder
- 1x multimeter

Size of packaging: 44 × 31,5 × 8 cm

Number of parts: 250
