Top Facts:

- Robotics add-on set for Robotics TXT 4.0 Base Set
- Extension set for models and features
- Printed building instructions included
- Suitable for group work of 2 to 4 pupils

The fischertechnik Robotics Add On: Competition was developed for schools, universities and other educational institutions that want to develop or improve their models for robotics competitions for their students. This building set can be used to tune models and add new features, making it the perfect base for competitions all over the world. The set contains a gyrosensor (gyroscope, acceleration sensor and compass in one sensor), an ultrasound sensor, two powerful motors, as well as chain links and caterpillar surface pieces for the body of a caterpillar, the perfect base for powerful robots.

In the education set included:

- RGB belt sensor
- Ultrasonic sensor
- Combination sensor (gyroscope, acceleration and compass)
- Powerful motors
- Chain links
- Snap track pads

Technical Data

- Number of parts 240

Absolutely necessary: Robotics TXT 4.0 Base Set

Ideal complement: Robotics Add On: Autonomous Driving, Robotics Add On: IoT, Robotics Add On: Omniwheels
