

**MKF 400 - Dynamic climate chambers for
rapid temperature changes with humidity
control, volume 417l, BINDER**

Order code: **2103.90200408**

Information about product price on demand

Parameters

Volume [l]

417

Temperature range [°C]	-40 až 180
Series	MKF
Quantitative unit	ks

MAIN FEATURES

- Temperature range: -40 °C to +180 °C
- Humidity range: 10% to 98% RH
- Humidity regulation with capacitive humidity sensor and steam humidification
- APT.line™ preheating chamber technology
- Intuitive touchscreen controller with time-segment and real-time programming
- CFC-free refrigerant R-452A
- Integrated water-storage tank, 20 L
- 1 stainless steel rack
- Access port with silicone plug, 50 mm, left
- 4 zero-voltage relay contacts

OPTIONAL EQUIPMENT

- APT-COM Multi Management Software – for managing, recording, and documenting unit parameters
- Racks – option of stainless steel racks, depending on test requirements
- Systems for water treatment and compressed air supply
- Services – wide range of services to ensure that the unit functions correctly
