The Prostate Examination Simulator is an indispensable model for both students and professionals. Instructors have the ability to teach techniques of prostate examination with no harm or embarrassment to real patients. Now every student can learn to detect beginning stages of prostate cancer and increase chances of patient survival. Four separate prostate glands are supplied with the torso, representing

one benign gland and three stages of prostatic carcinoma in varying degrees of development. Each gland can be inserted into the prostate torso to allow realistic practice in diagnosis by rectal palpation. The Life/form® Prostate Examination Simulator is complete with four glands, hard carrying case, lubricant, and teaching guide. Size: 22" W x 15" D x 12" H (56 x 38 x 30 cm).
