### Parameters

Surgery - filter

Stitching

Quantitative unit

ks

An advanced 3 layer skin pad for the demonstration and training of a variety of incisions and a wide range of suturing techniques.

### Improved product

- Epidermis is less 'sticky'
- Better differentiation between epidermis and dermis
- Softer skin layers allow incised edges to be brought together more readily, without compromising skin strength
- Fat layer has improved suture retention
- Yellow fat layer and more pigmented dermis improves visibility of sutures

- Incisions: linear, ellipse, flaps, shaped
- Subcuticular undermining
- Simple and advanced interrupted suturing techniques
- Subcuticular suturing
- Continuous suturing
- Stapling
- Use of adhesive strips

**Features:**

- Latex free
- Realistic tissue response
- Soft skin with a similar drag and strength to human skin
- Comprises epidermis, dermis and subdermal layer
- All layers have a realistic retention of sutures
- Serves the needs of the specialist as well as the beginner
- Pad dimensions: 145mm x 125mm
- Also available in large size, dimensions 125mm X 72mm
- Use with Skin Pad Jig Mk 2 00550
