Price with VAT	2.662,00 Eur

Parameters

Cannula, injection, puncturing - filter	Trup
Quantitative unit	ks

The Life/form® Adult Sternal Intraosseous Infusion Simulator is a first of its kind dramatic training aid designed to demonstrate, simulate, and prepare all levels of health care professionals for use of the sternal intraosseous approach. Created with the consultation of experts that developed this technique, incredible realism and accurate landmarks will allow students to simulate this new life-saving procedure with skill, confidence, and accuracy. This procedure is a quick and simple alternative to conventional IV infusion. It saves time and saves lives in demanding emergency environments. The simulator uses a replaceable bone that is designed to be rotated and punctured several times extending the life of the simulator. The sternum may be filled with simulated blood to better visualize true flashback. The kit includes: 10 replaceable simulated bones that should allow at least 10-12 punctures, syringe with tubing, blood mixture and a hard carrying case. Three-year warranty. Sh. wt. 20 lbs. (9.07 kg).

Available Supplies

- LF04202 - Sternal Bone Replacement
- LF01111 - Simulated Blood Mixture
