Quantitative unit ks

These unique Life/form® simulators combinevisual and tactile learning sensations ofcatheterization in one compact unit. Themid-sagittal dissections allow detailed study ofthe internal anatomy and provide students anopportunity to follow what happens when they catheterize a patient. The removable plasticcover identifies key anatomical structures. Withpractice on Cath-Ed 1 Male Simulator, normalrestrictions at

the bulbous urethra and bladdersphincter can be detected and identified. TheCath-Ed 2 provides practice in female catheterization. The vulva has been molded intactto facilitate identifying the urethra and properspreading of the labia. A functional bladderhas been incorporated to allow simulated urineto flow when the catheter is inserted properly. A Foley catheter can be demonstrated and seen through the viewing port. Three-yearwarranty. NOTE: Dover Products was theoriginal sponsor for these products.

Includes a hard carrying case, lubricant, one catheter, 50 cc bulb, syringe, and instruction manual. This simulator does not have a functional bladder. Size: 15" x 14" x 8" (38 x 36 x 20 cm). Sh. wt. 15 lbs. (6.80 kg).
