Parameters

Natural casting of a human shoulder joint. Shoulder girdle (shoulder blade and clavicle) with upper arm stump. The principal ligaments, such as the coracoacromial ligament, coracohumeral ligament and transverse ligament of the scapula are represented in addition to sections of the joint capsule. The main movements of the shoulder joint, such as anteversion, retroversion, outer and inner rotation and abduction can be demonstrated. With removable stand.

Also available **4003.4551** - Shoulder joint with ligaments - without stand
