

3140 E - Steam Sterilizer

Order code: **2106.3140E**

Information about product price on demand

Parameters

Types of sterilizers	Parní
Volume [l]	34
Inner dimensions (ø x d.) [mm]	310 x 390
Quantitative unit	ks

Safety and Convenience features:

- Seamlessly integrated into your work environment with compact design and heat insulation
- Durable 316L type stainless steel chamber and door with electro-polish finish
- Control lock-out switch prevents starting a cycle when door is not properly locked
- Door failure protection prevents door from opening at high pressure
- Automatic safety shutoff prevents overheating

Benefits:

- Thorough drying improves sterilization results
- Faster drying for a shorter overall cycle
- 0.2 µm HEPA air filter provides sterile, bacteria-free air for drying
- Rapid cycles optimize the availability of ready-to-use sterile instruments
- Easy-to-use, single touch control system increases productivity
- Enhanced monitoring for consistent documentation of sterilization results
- Long lasting, easy to maintain autoclaves guarantee virtually no downtime

Automatic Series features:

- 4 Pre-set sterilization programs
- Program and customize cycle parameters to suit your needs and maximize flexibility
- High precision control system for accurate sterilization results
- Integrated printer for cycle documentation (optional)
- PC Communication port enables storage of sterilization result
- Interdependent temperature and pressure monitoring
- User friendly intuitive display
- Cycle information recovery in the case of power failure or cycle interruption
- Insufficient water detector with automatic shutoff
