Parameters

Quantitative unit

ks

Supplementary kit for the rotating system on air bed U8405680 for investigating frictionless rotational motion and oscillations using a large rotating disc. On the underside of the large disc is an angle grid that can be used to provide triggers to a U8533380 laser reflection sensor if the rotation is to be recorded with the help of the 3B NETlog™ interface unit.

- **Typical oscillation periods:** 20 s approx. to 2 mins approx.
- **Moment of inertia of large disc:** 2,2 g m² approx.

Contents:

- 1 Large disc with protractor scale, 350 mm
- 1 Scaffold stand
- 1 Cross sleeve
- 1 Set of coupling springs with magnet (1 N, 2 N, 5 N)
