TruCorp AirSim Advance X features the uniquely constructed AirSim® X airway and an anatomically correct nasal passage for visual accuracy and realistic feedback during airway management procedure practice. Durable and true-to-life airway is certified for over 20,000 intubation cycles. Silicone simulated skin covering offers a lifelike feel and more precise articulation during bag-valve mask ventilation training.

Model Features

- Innovative AirSim® X airway & nasal cavity created from DT DICOM data
- Anatomically correct internal features & visually accurate landmarks such as turbinates
- Inflatable tongue bulb to simulate edema
- Replaceable lung bags inflate with successful ventilation
- Esophagus & replaceable bag representing stomach

Medical Procedure Training

- Endotracheal tube insertion
- Double naso-tracheal intubation
- Nasogastric (NG) tube insertion
- Combi tube insertion
- Bag-valve mask (BVM) ventilation techniques
- Full range of supraglottic device insertion
- Direct laryngoscopy
- Awake fiber optic examination

Package Contents

- 1 Carrier/Storage Case
- 1 Bottle of TruCorp Lubrication
- 3 Adult Lung Bags replicating 2 lungs & stomach
- 2 sets of adhesive pads (attachable to suction cups for increased stability if required)

Parts & accessories

- Replacement AirSim Advance X Airway
- Replacement Head Skin (With Nasal Passage)
- Base Plinth
- Suction Cup (Set Of 8)
