This set is a worldwide unique original anatomical replica of a human vertebrae with the most precise illustration of even the finest anatomic structures of the vertebrae, exhibiting excellent quality. The vertebrae set includes the 7 cervical, 12 thoracic and 5 lumbar vertebrae. The spinal vertebrae set of models includes the following features:

- Made of 3B BONElike™ material, feels and looks like real bones.
- Realistic weight
- These vertebrae are excellent to use as a substitute for real bones for medical teaching purposes and patient consultation
- Each vertebra is labeled for identification purposes (C1-7, T1-12 and L1-5)
- The anatomical replica is supplied in a transport and storage case with individual compartments for all 24 vertebrae
