This anatomy model is a representation of a median section through the female pelvis at 40 weeks pregnant with a removable fetus. Study the normal position of child before birth with this model plus the human reproductive and urinary systems. A uterus with embryo in 3rd month of pregnancy is mounted on base for added detail. The realistic and high quality female pelvis includes the female genital organs and other important anatomical details. This pregnancy female pelvis is a great addition to any anatomy classroom or doctor's office to educate about the stages of pregnancy.

Dimensions: 38 × 25 × 40 cm

Weight: 2,5 kg
