Teach patients and healthcare staff the care and use of two different types of catheters with this model. Features left and right subclavian catheter connections that may be flushed with water; implanted venous access system with a "skin" flap over the implant to allow viewing.

Made of skinned, lightweight urethane foam, this model may be washed with soap and water, or painted with antiseptics.

Mounted on a collapsible easel and packed in its own carrying case.

Measurements: 38,1 × 53,3 cm

Weight: 4,5 kg

Caution! - Skin might contain bubbles, please refer to the pictures. However, this does not influence the functionality of the simulator.

Options and Replacements:

- **W43008 - Skin Flap**
