With the creation of B-bak, Spencer has set a new technology reference level for the industry, providing a spine board that reduces the possibility of contamination during transportation of the patient. High density completely recyclable polyethylene, moulded into a unique, one piece shell; this technique guarantees the B-bak the following exclusive characteristics:

- rigidity
  - lightness
  - resistance to bumps and corrosion
  - completely waterproof
  - does not absorb liquids
  - immune to infiltrations
  - easy to clean (water and soap are sufficient)
  - totally X-ray compatible (the patient can be removed from the spine board even after carrying out X-rays or CAT scan investigations)
- 
- **Dimensions:** 405 × 50 × 1 837 mm
  - **Weight:** 6,7 kg
  - **Load capacity:** 180 kg
  - **Functioning temperature:** from -20 to +60 °C
