Laryngoskopy

A practical, economical and integral solution to always have at hand a complete set of blades and the handle for laryngoscopes. LSK 3 is a useful and versatile solution which results in a container that is made in a technical material; retentive and super protective. Apart from the clear and intuitive disposition of the pockets, LSK 3 characterizes itself for its compactness and the lightness of the complete set means it can be included in all reanimation kits.

LSK 3 contains:

- a fibre-optic adult handle
- three Macintosh blades
- three Miller blades

- **Dimensions:** 170 × 60 × 120 mm
- **Weight complete:** 750 g
