Laryngoskopy

A new Spencer holder. A new emotion and a new solution. The classic icon of the “small bag” has been subjected to the Spencer technology and has been made using vacuum moulding that transforms it into an industrial product. Modularity, softness and quality finishing are the values used for the LSK 4, innovative as much for the design solutions as for the materials and the finish. Inside a series of elastic loops allow for the blades and handles to be placed in total security and order. It has zip closure.

LSK 4 contains:

- a conventional light adult handle
- five Macintosh blades
- five Miller blades

Also available in fibre-optic version.

- **Dimensions:** 295 × 65 × 180 mm

- **Weight complete:** 1,3 kg
