The Life/form Interactive Suture Trainer offers students a true-to-life clinical simulation experience. The trainer attaches easily to a person's or manikin's arm, leg, or hip, allowing practice of suturing techniques in addition to essential communication and patient interaction skills. This convenient, cost-effective kit offers practice at all skill levels, including tying knots, placement of staples, and suturing both superficial

and deep wounds. By making their own incisions, the instructor or student is able to determine the depth of suturing and the proper technique to be used. Wounds automatically open when cut. Includes suture pad, attachable pad base with straps, needle holder, suture scissors, tissue forceps, scalpel, soft carrying case, nylon suture, instrument case, and instruction manual.
