

„Buttockmate“ type 2 - Intramuscular Injection Simulator

Order code: **4109.M153-1**

The epidermis is made of a special material that leaves no needle mark.

Selection of an incorrect site is indicated by blinking of the red lamp and buzzing. Successful puncturing at the correct site is indicated by the green lamp.
(Only at Clarke's point and Hochstetter's point)

Being compact, the device needs a small space for storage.
