Order code: 5401.1008661

Cena bez DPH 532,00 Eur

Price with VAT 643,72 Eur

**Parameters** 

Quantitative unit ks

Attractive and easy-to-operate three-dimensional model of the sun, moon and earth, for comprehensive demonstration of their motions. Earth and moon in two different sizes in order to demonstrate day and night, motion of the sun across the sky, annual seasons, the changing amounts of daylight, phases of the moon, as well as solar and lunar eclipses and the cycles they exhibit.

Shadows have clear edges since the sun is represented by a bright lamp with a Sunbeam™ reflector. As an alternative to turning the whole

system together, the rotation of the earth on its axis and the position of the moon in its orbit can be adjusted individually by hand.

• Dimensions: 650 × 250 × 300 mm

## Includes:

Tellurium with earth and moon in two sizes; display cards showing dates, solar eclipses, lunar eclipses and phases of the moon; small figure; sundial; detailed instructions in English; mains transformer, 100 – 240 V / 6 V
