Defibrillator iPAD CU-SP1 is semi-automatic external defibrillator intended for use by minimally trained persons. It's maximally effective and life saving. Defibrillator guides user step by step with simple and clear orders in Czech language from the start of the rescue procedure. It's light and powered by battery, which allows for the maximal mobility.

Defibrillator i-PAD CU-SP1 is intended for use during ventricular fibrillation and quick ventricular tachycardia. Thanks to an automatic impulse volume adaptation the defibrillator is suitable for use in noisy environment.

You can order a carry case for this defibrillator (4401.P04415).
