Parameters

Quantitative unit

ks

- Ideal for training staff to prepare them to manage trauma stabilization
- Bleeding system is easy to use, provides hours of training, and features rapid changes in presentation for students and department members

- Realistic Flash Moulage System is designed for easy, rapid-fire use
- Deploy detailed moulages in seconds with the option of bleeding or non-bleeding presentation
- Includes trauma shorts with femoral artery for tourniquet (for amputation leg use), high trauma packable wound (below femoral artery outside of right thigh opening to 12 mm, inside cavity 20-25 mm, approx. 1/3 depth of thigh), and amputation leg (just above the left knee femoral tourniquet on thigh to stem bleeding)
