

Information about product price on demand

Parameters

Volume	55 l
Temperature range	0.0 °C ... 99.9 °C
Brand, Manufacturer	BMT
Internal dimensions (w×d×h)	400 × 370 × 350 mm
Quantitative unit	ks

- Precise, nature-adaptable, cost-saving – laboratory incubator
- 55-liter chamber volume
- Working temperature of from 0°C up to 100°C
- Patented cooling system (ecological cooling medium R134a) offers a precise and quick simulation of natural processes and reduces the risk of samples evaporation; various types of the inner chamber lighting can be added to the unit
- High operation comfort; precise temperature regulation; possibility to reach even extremely short times of temperature changes

and short times of temperature recovery in the chamber after the door opening; the standard equipment includes inner glass door and possibility to regulate the fan speed

- Suitable for demanding and accurate tests and samples cultivation
- Comfort model with a Fuzzy logic microprocessor control system; control elements situated on a foil keyboard, process information indicated on a LCD display
- Wide range of optional equipment and accessories
- Output for a printer or PC connection
- Validation possibility (IQ , OQ)
