Biological Safety Cabinet class II width 1600 mm (BIO160 CYTO - A2) adapted for operation with cytostatics.

Specification of the biological safety cabinet class 2 - BIO160 CYTO

- vertical laminar air flow
- 3 HEPA filters with efficiency of 99.995% for MPPS
- exhaust carbon filter in compliance with DIN 12980
- microprocessor control system with touchscreen in Polish/English or any other language
- automatic filter compensation ensures constant and safe speed of air flow in the cabinet
- hour timer of the cabinet and UV lamp operation
- · adjusted air flow
- clear and easy-to-use control panel-optical and acoustic signals
- silent fans, noise level below 56 dB
- front window made of tempered double glass without frame, inclined at an angle of 8°, electrically raised and lowered, with a possibility to shut it completely closing the workspace
- split worktop (5 autoclavable boards), made of stainless steel
- internal workspace made of stainless steel
- permanently fixed UV lamp in the upper part of the workspace, protected from accidental switching on during operation
- white LED lightning system min. 1400 lux
- workspace sides with window openings
- workspace equipped with a drain made of stainless steel for easy cabinet decontamination and cleaning
- four power sockets inside workspace
- removable armrest
- frame with lockable castors
- power supply 230V/50 Hz

Standard equipment of the biological safety cabinet class 2 CYTO

- additional lamp above the workspace
- UV germicidal lamp
- power sockets inside the workspace
- basis under the laminar-flow cabinet
