This brand new trainer offers realistic, repeatable training in the core skill of digital rectal examination.

The Advanced model comes with a range of prostates and 2 perineums, allowing trainees to become familiar with normal and abnormal findings and acquire key diagnostic skills.

Features

- Simulation of sphincter contraction allows trainees to assess anal tone
- Interchangeable prostates can be quickly and easily inserted, out of sight of the trainee
- Left lateral positioning
- Addition of impacted faecal matter allows trainees to recognise and distinguish this common finding
- High quality illustration pack of 9 external anal conditions
- Both the Advanced and Standard (60170) model offer a contractible anal sphincter, allowing for anal tone assessment, and a faecal impaction clip in module
- External ano-rectal illustrations are ideal for incorporation into scenarios and OSCE assessments
- Soft, partable buttocks

- Realistic anus with resting tone and ability to contract
- Trainer can also be presented in a 'semi-standing' position using the optional Standing Position Stand (60172)
- Latex free
- Buttocks, anus, rectum, prostate and perineum
- Pathological perineum - with polyp and rectal cancer
- 4 abnormal prostates:
 - Benign unilateral enlarged
 - Benign bilateral enlarged
 - Unilateral carcinoma
 - Bilateral carcinoma

Skills

- Digital examination of the anus, rectum and prostate
- Assessment of anal tone
- Identification of faecal matter in the rectum
- Identification of external ano-rectal conditions
- Professional to patient communication
